All funding offers will be subject to a signed agreement that will include a commitment by the recipient organisations to report on outputs and outcomes of the agreed funding purposes.

We will prioritise bids that are:

- for financially accessible support
- delivered locally by local organisations, and
- clearly address the home support tasks listed above or similar tasks that will achieve the same outcomes.

Commissioners are particularly keen to encourage bids that demonstrate innovation and sustainability, particularly in relation to innovation in the approaches to home support which promote choice and independence of the individual.

Management of Successful Awards

Once awards have been determined by Cheshire Community Action (CCA) and the Council, and agreements have been entered into with successful applicants, the subsequent monitoring of those agreements, and the issuing of payments, will be managed on behalf of the Council by CCA.

There will be a mid-year review and you will be required to complete an end of grant report with a focus on evidence, impact and case studies. A clear expectation of agreed targets will be agreed with CCA and detailed in the grant agreement. The mid-year review will be completed by CCA, and the end of year report will be submitted to the Council.
